

Understanding Anatomy and Movement to get the best from your horse

Sunday, December 7th at 10am
An illustrated talk with
Iris Ege, MRCVS, Cert Veterinary Acupuncture

Iris Ege uses her background as a vet and her experience as a horsewoman to explain and improve your understanding of *equine biomechanics* and how to maximise your horse's performance.

She will use video and photographs to show how the horse moves and will clarify suppleness, engagement and collection from an anatomical perspective. An understanding of anatomy and movement is key to ensuring that you

***“work your horse
with soundness and longevity in mind”.***

This talk aims to answer all the questions you were afraid to ask!

Venue: Arrow Equestrian, Weston House Farm, Pembridge HR6 9JE

Date and Time: Sunday, December 7th, 10am – 1pm, Cost: £12pp
