

Veterinary Acupuncture
and Physiotherapy

Helping dogs to get better

A holistic approach can improve the quality of life for elderly dogs, minimise the impact of injuries or surgery and speed up recovery, help with tricky immunological problems and improve the performance of working dogs.

“An acupuncture demo is going to take place at the A.P. Vet - Stall at 11 am and 2.30 pm. If you have questions please come along at any time.”

At A.P. Vet Ltd. qualified and experienced professionals embrace a genuinely holistic approach. Hannah Price has worked as a Physiotherapist since 2003 and did her Masters in Veterinary Physiotherapy in 2008. She then worked in specialised rehabilitation centres for 5 years before joining A.P. Vet in 2013.

Dr. Iris Ege graduated as a vet in 2003 and has since specialised in Holistic Veterinary Medicine with a focus on Acupuncture and Herbs. From 2008-2012 she worked locally for Arrowfield Vets in Kington. In January 2013 she gained her international certificate in acupuncture and founded A.P. Vet Ltd.

We treat dogs and cats at veterinary practices in Kington, Malvern and Hereford. Home visits are also available.
